Bainbridge Island Fruit Club
Club Meeting of 11/20/2014 (6-8pm, Grange Hall)

Meeting was called to order 6:00
minutes of prior meeting were read and approved.

Beth gave treasurers report . we have added a few members, have a little more money, **have not paid wcfc yet.**

Tammy gave a introduction to the website.

There was some discussion of meeting times, The concensus was that 6: is too early for commuters and some parents feeding dinner to their kids. **Future meeting times will be at 6:30** and we will see if that works better..

Speaker Kathleen Allen spoke and demonstrated better ways of using our bodies and gave us all some good ideas for happier backs and necks while gardening.

No club meeting in December due to holidays.

- January's meeting "scion wood collection/storage and simple grafting techniques".
 - February's meeting "winter pruning" (w/ weekend workshop).
 - March's meeting "hands-on grafting workshop".
 - April's meeting "pest controls"
- some members wondered if april was too late to treat some pests.
perhaps an ad hoc workshop would be in order.

It was suggested that we **send out email notice re December non-meeting, January meeting start time, and web address.**

Meeting adjourned.
