

Small group attended. A couple of new faces.

We started with a brief business meeting:

- treasury report read
- volunteers solicited for board (unsuccessfully)

The regular July meeting is cancelled. We announced a Sat pruning workshop in July-August but no date given.

(We need to give a date and send out email about the meeting.)

(We also need to decide on any orchard tours .)

I gave reminder about PFC and Harvest Fair events.

Bart Berg gave a very wide ranging overview of farm water systems. He also spoke a little about mulches and thought a talk on soil biology would be good as well.

Someone mentioned meet-ups as a means of building membership.

We adjourned around 8

I took in \$6.00 in contributions for the Hall.
